All vehicles, excluding golf carts and ATV's, within the confines of Bull Point must have a valid state registration, proof of insurance, and have a valid POA decal, a guest / visitor pass, contractor decal, or employee decal properly displayed. Applications for decals are available at the security gate.
- B. All decals will be permanently affixed to the upper or lower left corner of the vehicles windshield. Decals will be put in place by security. Under no circumstances will decals be mailed or given to Members without the vehicle being present.
- C. When the vehicle is disposed of, or the windshield replaced, the old decal must be removed and returned to Bull Point Security.
- D. The Board reserves the right to deny the issuance of a decal or a pass or to remove a decal or pass if it is not used in accordance with the POA Documents.
- E. All decals and passes are issued to one specific vehicle. Transferring decals or passes to another vehicle is prohibited.
- F. Vehicles such as panel trucks and pickup trucks which fall within the definition of "commercial vehicles" and which are used by the Member, and only by the Member, as both a private and commercial vehicle will display a property owner decal on the windshield at all times. "Commercial vehicles" are defined as those which have lettering or other evidence of commercial use such as pipe racks, ladders, etc.

MEMBER DECALS – Boats & Trailers

All Member boats, trailers, RVs and other such items parked in the Bull Point Boat/RV storage area must obtain and display a Member decal. Applications for the decals are at the Security Gate.

COMMERCIAL DECALS

- A. Commercial decals are issued to all persons involving construction on behalf of the POA or a Member and are issued on a daily, weekly, monthly, or yearly basis at a cost determined by the Board.
- B. Service Providers will be provided a daily pass if the Member notifies security in advance of the provider's arrival. Fees may also apply (see Gate Fees below).
- C. Daily passes are issued on a cost schedule determined by the Board.

GATE FEES (Exhibit A)

Gate fees are intended to help pay for the security needed to monitor all traffic coming into Bull Point and to help repair the negative impact to the roads and shoulders caused by large vehicles.

Until a Certificate of Occupancy ("C.O.") is issued by the county, all construction and service vehicles will continue to pay according to the gate fee schedule on file at the gate. Copies of this fee schedule are available upon request from Security, the Board, or the Management Company.

Bull Point Plantation Property Owners Association, Inc.

After the C.O. is issued, commercial vehicles may pass through without a fee for servicing purposes only. In general, gate fees apply to all original or new work, and servicing is free of fees. The Members must call security at the gate to inform them of the Members' contractor's or servicing company's arrival and the nature of their work. Security will make the final decisions concerning gate fees at the time of entry based on the information, the Member, gives them. It is imperative that Members abide with the letter and the spirit of this policy for the good of the community. Please do not confront security on any disagreements; they are merely following the policy given to them by the Board. Any appeals or exceptions to these fees must be made to the POA Board or an authorized Management Company representative.

The following examples assume that a Member has a C.O. This is only a partial list of possible events, but similar reasoning can be used in any circumstance.

1. A plumber is called to fix a leak. No fee would apply.
2. A sink was backordered and not installed. A plumber arrives to install the sink. A fee would apply because this is unfinished original work.
3. The Member has a C.O. but the Member's landscaper is still finishing the project. He will have to pay all fees until the job is completed.
5. The Member is living in his or her home and decides to add an outbuilding. All work on that project is considered new work and fees will apply.
6. The Member consults with a contractor to add outlets in the Member's attic, there would be no fee for consultation, but fees would apply when he returns to do the work.

D. Members can inform Security that they will be responsible for such gate fees (instead of charging the commercial vehicle driver); however, the Member must pay the fee to Security with cash or check within 7 days of the contractor's or service provider's visit.

GUEST PASSES

- A. Guest passes are issued to visitors who will be residing with a Member who is a Bull Point resident for up to 2 weeks. Visitors staying longer than 2 weeks will need to have their guest pass renewed in 2 week intervals. Guest passes will only be issued to a visitor for the specific non-commercial purpose of visiting a resident.
- B. Guest passes are issued on a daily basis for guests not residing with a resident.
- C. Members will be responsible for assuring that the visitor observes all rules pertaining to the proper use of the guest pass.

SPEED LIMIT

- A. Parked vehicles may not block the passage of a street or a driveway or encroach upon private property.
- B. Vehicles may not be parked on grassy areas for more than 48 hours, nor may they be parked repeatedly on grassy areas. Any damage caused by vehicles parked on common grassy areas will be the responsibility of the owner of the vehicle causing such damage. Should an owner not remedy any such damages, the Board may assess the owner for the costs of repairs.
- C. Persons using common property or amenities must park in designated areas.
- D. Commercial vehicles parked on the street must use orange caution cones at the front and rear of the vehicle to alert oncoming traffic.

Except as set forth below, these types of vehicles are not permitted to be parked in the driveway, roadway, parking lots, or on undeveloped lots. Members are permitted to park a trailer on their property on an infrequent basis, including on grass areas, for a period of 72 hours, provided they do not block a roadway or walking path. By way of example, Members are not permitted to park a boat trailer on their property for 72 hours, remove it for several hours, and then park it again on their property for another 72 hours.

A. CONTRACTORS: All construction and service vehicles pay according to the gate fee schedule above. Copies of this fee schedule are available upon request from Security, the Board, or the Management Company.

B. MEMBERS: Members must call security at the gate to inform them of the Members' contractors or servicing company's arrival and the nature of their work. If there are any questions call the Bull Point Gate House at 843-846-0939 (office) 843-505-2515 (cell) between the hours of 8:00a to 5:00p, Mon-Sat. (Closed on Sunday).

Members can inform Security that they will be responsible for such gate fees (instead of charging the commercial vehicle driver); however, the Member must pay the fee to Security with cash or check or through Square within 7 days of the contractor's or service provider's visit.

Security will make the final decisions concerning gate fees at the time of entry based on the information the Member gives them. It is imperative that Members abide with the letter and the spirit of this policy for the good of the community. Please do not confront security on any disagreements; they are merely following the policy given to them by the Board. Any appeals or exceptions to these fees must be made to the POA Board or an authorized Management Company representative.

Examples. This is only a partial list of possible events, but similar reasoning can be used in any circumstance.

4. If the Member's maintenance contractor arrives with a truck load of plants, this would be considered new work and fees would apply.
5. The Member is living in his or her home and decides to add an outbuilding/structure. All work on that project is considered new work and fees will apply.
6. The Member consults with a contractor to add outlets in the Member's attic, there would be no fee for consultation, but fees would apply when he returns to do the new work.
7. Any work requiring ARC approval, gate fees apply.
8. Member is performing work without a contractor. Only the vehicle they are driving is excluded from gate fees.
